

Outdoor Directional Antenna

A-D2T2R-5GHZ-15DB-6KM-NF

- 5.8G wireless access system
- Point to point, point to multi-point system
- Adopt wide band technology, high gain, fast transmission speed, good performance
- Strong anti-interference capability
- Small size, install and use conveniently

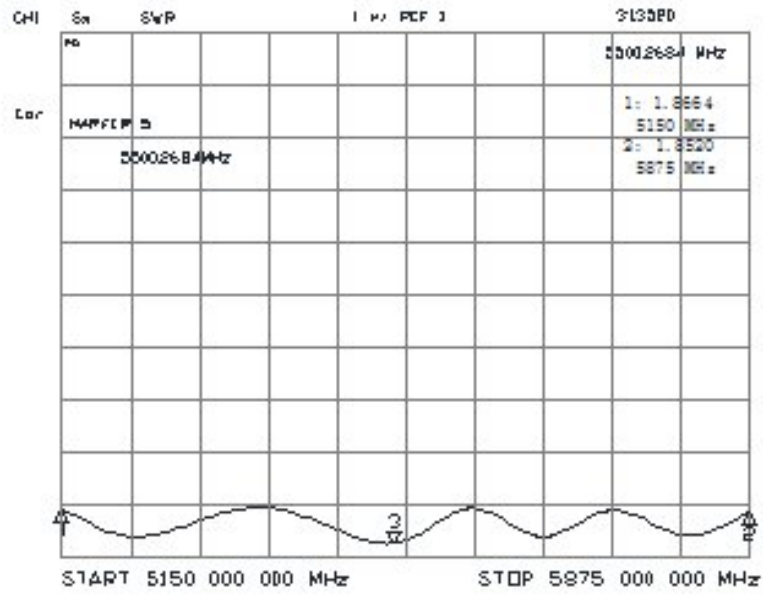

Specifications

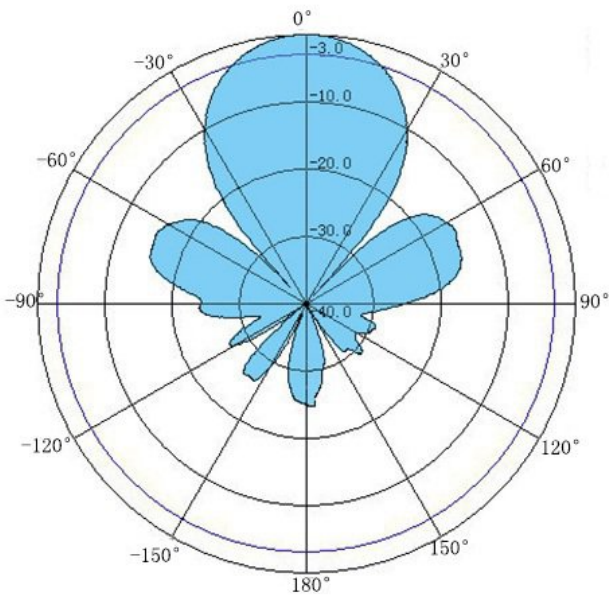

Electrical	
Frequency Range	5150~5875MHz
Transmission	2T2R
Gain	15dBi
V.S.W.R	≤ 2
Distance	5km
Beam Angle Horz.	35°
Beam Angle Vert.	16°
Polarization	±45°
Input Impedance	50Ω
Max Input Power.	50W
Mechanical	
Connector	2 × N-Type Female
Wind Resistance	60m/s
Mount	Pole Mounting Kit
Pole Mounting Kit Angel	Up 30° and Down 30°
Op. Temperature	-40°C ~ +60°C
Ingress Protection	IP65
Dimension	190*190*30mm (LxWxH)

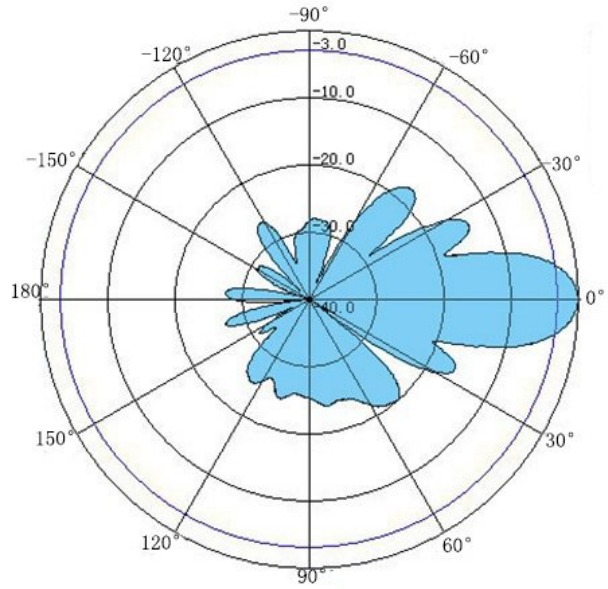

Voltage Standing Wave Ratio

Radiation Pattern

H

E
