

RoHS Certificate of Compliance

Restriction of the use of certain Hazardous Substances (RoHS)

Directive (EU) 2015/863 (the RoHS3 Directive) restricts the use of the hazardous substances listed below in electrical and electronic equipment. Based on information provided by our suppliers, Jetway designates the product(s) listed below as RoHS compliant for orders placed on or after the date of this certificate.

RoHS compliant means that:

- Our suppliers have confirmed the compliance status of the relevant products to us.
- We apply rigorous and ongoing processes to confirm and document this.
- We perform material content testing where appropriate.
- We have introduced new part numbers for all new compliant products to identify and segregate compliant stock through our distribution network and our customers' stock management and purchasing systems.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

For these purposes, the maximum concentration values of the restricted substances by weight in homogenous materials are:

Lead (Pb)	Less than	0.10%	by component weight	(< 1,000ppm)
Mercury (Hg)	Less than	0.10%	by component weight	(< 1,000ppm)
Hexavalent Chromium VI (Cr VI)	Less than	0.10%	by component weight	(< 1,000ppm)
Polybrominated Biphenyls	Less than	0.10%	by component weight	(< 1,000ppm)
Polybrominated Diphenyl Ethers	Less than	0.10%	by component weight	(< 1,000ppm)
Cadmium (Cd)	Less than	0.01%	by component weight	(< 100ppm)
Bis(2-ethylhexyl) phthalate (DEHP)	Less than	0.10%	by component weight	(< 1,000ppm)
Butyl benzyl phthalate (BBP)	Less than	0.10%	by component weight	(< 1,000ppm)
Dibutyl phthalate (DBP)	Less than	0.10%	by component weight	(< 1,000ppm)
Diisobutyl phthalate (DIBP)	Less than	0.10%	by component weight	(< 1,000ppm)

Jetway takes all reasonable steps to confirm suppliers' statements and maintains a full audit trail of relevant documentation.

Compliant products HBFMF833xx-yyyy-zzz (barebone), JNF833xx-yyyy-zzz (motherboard)
(x, y, z Stands for "0-9" or "A-Z")
